INTRODUCTION

OUTCOMES, ASSESSMENT COMPONENTS, WEIGHTINGS AND TASKS

The Department of Education (DoE) and the NSW Education Standards Authority (NESA) have a number of technical terms that you should be aware of. The terms Syllabus, Outcomes, Assessment Components, Weightings and Tasks are technical terms that you should understand.

- Each course has a SYLLABUS that sets out the contents of the course. The syllabus is used by teachers to prepare their teaching lessons. It is essential that you have the syllabi of each course that you study. All NSW syllabi are available on the Internet at <https://syllabus.nesa.nsw.edu.au/stage-6/> In each course syllabus are the OUTCOMES that should be achieved by students studying the course. The outcomes describe skills and knowledge that a student should be able to demonstrate once the course has been completed.
- Towards the end of each syllabus is a section describing what will be assessed in the course. This section shows what will be assessed, the assessment COMPONENTS, and how much weight will be given to the particular component, the WEIGHTINGS. Weightings are expressed as percentages of the total assessment program.
- The syllabus does not give you the details of the actual ASSESSMENT TASKS that you complete during your Preliminary or HSC year. Assessment tasks are developed by your teachers and are used to assess how well students have achieved the course outcomes. Assessment tasks are designed using the outcomes and weightings from the syllabus. The tasks take place as you study the course and assess all outcomes other than those related to attitudes and values. The actual form of the assessment task will vary from subject to subject.
- You may have tests, projects, presentations or reports to prepare. Before each assessment task, you will receive a **notification at least 2 weeks** before the task is due. This should include a description of the task. The descriptions will vary from subject to subject but you will find such information as what needs to be done, deadlines, format of the test, length of required answers and how the task will be marked.
- Assessment tasks will:
 - * help you learn, expand your knowledge and encourage you to challenge yourself
 - * show how much you have learnt and where you need to improve
 - * demonstrate that you have satisfactorily completed a course
 - * contribute to your final Preliminary grade.
 - * allow you to show what you know, understand and can do in ways that cannot always be demonstrated in a written examination.

Assessment Policy

The purpose of this document is to outline the Assessment Policy of Granville Boys High School for the Preliminary Higher School Certificate in 2024.

Please read this policy carefully and make sure you understand it. All students must sign that they have received this booklet.

Preliminary Course

To qualify for the Higher School Certificate students must satisfactorily complete a Preliminary Pattern of Study comprising at least 12 units and a Higher School Certificate Pattern of Study comprising **at least 10 units**. Both Patterns must include:

- at least 10 units from Board developed courses
- at least 2 units of a Board developed course in English
- at least 3 courses of 2 units value or greater
- at least 4 subjects

Purpose of Preliminary Course Assessment

The purpose of the school Assessment in reporting for the Preliminary Course is to provide an indication of a student's achievement based on:

- a wider range of syllabus outcomes than may be measured by a single Preliminary Course examination.
- multiple measures and observations made throughout the Preliminary Course, giving students credit for what they have achieved throughout their courses, in addition to their final examination.

Satisfactory Completion of Preliminary Courses

A student will be considered to have satisfactorily completed a course if, in the Principal's view, there is sufficient evidence that the student has:

- a) **followed** the course developed or endorsed by the Board; and
- b) **applied** themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school;
- c) **achieved** some or all of the outcomes.

Student Responsibilities

Expectations of students:

1. Students must attend all classes to satisfactorily complete the Preliminary Higher School Certificate Courses. **A minimum of 90% attendance is generally expected** for students to achieve the outcomes of the course being studied.
Unexplained absences, lateness and class attendance patterns **will be reviewed every five weeks** to ensure that the students are meeting the course completion criteria and the minimum attendance requirements.
Students whose attendance is called into question will be asked to prove to the Principal's satisfaction, following a review of their performance, that they are meeting the course completion criteria. (ACE Manual).
2. Attend classes on the day an assessment task is due.
3. All work submitted must be students' own work.
4. The Board of Studies expects students to **attempt all assessment tasks**.
5. Students must submit work by the due date.
6. Prepare for examinations and **make a serious attempt**.
7. Complete the syllabus including participation in class practical work, homework, oral presentations, assignments and examinations.
8. Where a student cannot meet a deadline or is absent for the submission or performance of a task, the student must apply for special consideration. (Refer to Point 12).

If there is a valid reason, an “**Assessment Task Misadventure / Illness Application**” proforma needs to be completed and all supporting documentation has to be submitted to the relevant head teacher on the first day back after their absence otherwise a zero mark will be awarded.

9. Students must make a genuine attempt at assessment tasks which contribute **in excess of 50% of the available marks otherwise they will be deemed unsatisfactory in that course.**

Students who do not comply with the assessment requirements in any course will have neither a moderated assessment mark nor an examination mark awarded for that course. (ACE Manual August).

10. **Students who are absent on any day are responsible for ascertaining if an assessment task has been set in any subject on that day and obtaining any necessary information or task notifications issued for assessments.**

11. Students who transfer into the school after the commencement of the HSC Course will be given substitute tasks wherever possible. In some cases, estimates may be given.

12. Procedures for students when absent from tasks

Where a student cannot meet a deadline or is absent for the submission or performance of a task, the student must apply for special consideration. The form is on the last page of this booklet.

Any application of an extension of time is required before the due date.

If a student is absent on the day of the task:

- The student or his parent must telephone the school and inform the relevant Head Teacher.
- An application in writing **must** be lodged with the Head Teacher(s) of the subjects(s) concerned at the beginning of the next day the student is in attendance at school.
- A doctor’s certificate is required if the application is on medical grounds.

Medical Certificates for Missed Assessment Tasks

Medical Certificates must:

- be written on a named doctor’s pad, with contact details
- include the day of the missed task
- show in detail, the nature of the illness
- show the length of time the student will be unfit for school
- be produced immediately on return to school.
- After considering a student’s application, the Head Teacher will inform the student of the decision.
- **If the student does not make application to the Head Teacher(s) concerned on their next school day of attendance after the due date of the missed assessment task, a zero mark will be recorded.**

If the Assessment Task Misadventure/Illness Application is accepted, then the teacher of that course will do one of the following:

- arrange for the student to attempt the task at a different time;
- arrange for the student to attempt an alternative task of a similar nature;
- in exceptional circumstances the Head Teacher may authorise the use of an estimate based on appropriate evidence.
- **If the Assessment Task Misadventure/Illness Application is not accepted**, the student will be awarded a zero mark and a letter will be sent home to advise parents/guardians. Students may appeal against the Head Teacher’s decision by lodging an appeal form with the Principal **within three (3) school days of initial determination.**

The Principal may:

- Reject the appeal and order the zero mark to stand
- Grant a limited extension
- Order that a substitute task be performed
- Award an estimate

13. During any assessment task/exam you must not:

- Do anything that would disrupt the task or disturb another student
- Communicate with another student
- Look at another student's work
- Take into the room any books, notes, papers or equipment other than what is allowed by the supervising teacher
- Make a non-serious attempt otherwise a zero mark will be awarded
- Be in possession of, or use a mobile phone or electronic device.
- **A zero mark will be awarded for all of the above breaches.**

The School's Responsibilities

1. Each course will have its own assessment schedule developed within the guidelines provided by the Board of Studies. The Board requires all students to follow an assessment program and have an assessment mark submitted irrespective of the number of units in which they may be enrolled.

This means that teachers are required to:

- set tasks to measure student performance in each component of the course;
- specify the relative value of each of these tasks;
- provide information on what is to be assessed;
- provide information on how they will be assessed;
- keep records of each student's performance on each task;
- provide students with information on their progress;
- the range of tasks used in the assessment will vary from course to course and may cover:
 - tests which may take a written, practical, oral and aural form
 - class and/or homework assignments, including essays and practical tasks
 - projects of varying degrees of length and complexity
 - oral presentations

Head Teachers are required to:

- ensure tasks meet Board of Studies requirements for courses;
- ensure students sign when a task is issued;
- ensure students sign when a task is returned;
- record marks on faculty system before marks are returned,
- ensure Board of Studies Warning Letters are issued when appropriate or in accordance with Point 10 in this section.

2. Notification of Tasks:

- The actual form of the assessment task will vary from subject to subject. You may have tests, projects, presentations or reports to prepare.
- Before each assessment task, you will receive a **notification at least 2 weeks** before the task is due.
- Students will be provided with a written assessment notice containing information on the nature of the task and the outcomes to be assessed.

Student Feedback

Students will be given feedback on their performance (e.g. mark, position) as soon as possible after the completion of the task. Students and parents will be advised in writing when zero marks are awarded.

3. The Award of “Zero Marks”

A zero mark is noted as a non-attempt for a particular course and can be awarded in two instances:

- non-presentation of a task without approved reason;
- an attempt to gain unfair advantage (malpractice).

4. Non-Presentation/Non-Attempt

If a task is not attempted or submitted by the due date and the student is not exempt, the student will be awarded a zero mark.

5. Malpractice

Cheating, or malpractice, is dishonest behaviour by a student that gives them an unfair advantage over others. It is expected that work submitted in fulfilment of Assessment requirements shall be the student's own work. Examples of malpractice beyond this would include:

- Plagiarism – using material directly from books, journals or the internet without acknowledging the source
- Copying – copying, buying, stealing or borrowing someone else's work in part or in whole, and presenting it as your own
- Not your own work – paying someone to write or prepare material that is associated with a task, such as process diaries, logs and journals or having someone else complete the task
- Submitting work that someone else, like a parent, tutor or subject expert, substantially contributed to
- Falsifying receipt documents
- Offering false documentation in support of an appeal
- Cheating during a test or exam, helping another student to engage in malpractice
- Misbehaving during exams, breaching exam rules

Where there is reason to suspect malpractice, or evidence of malpractice, the student shall be awarded a zero mark for the task following further investigation.

6. During any assessment task / exam if a student does any of the following:

- Does anything that disrupts the task or disturbs another student
- Communicates with another student
- Looks at another student's work
- Takes into the room any books, notes, papers or equipment other than what is allowed by the supervising teacher
- Makes a non-serious attempt
- Cheats in any way
- Uses an electronic device (smart watch, phones etc)
then a zero mark will be awarded.

7. Lateness

Students need to be on time for examinations and assessment tasks. If a student arrives late during an examination/assessment task without a valid reason he must undertake the task in the remaining time. If lateness is for a valid reason and supported by evidence, the student will be allowed the normal length of time.

8. Extensions

Students who are unable to present for an out of class assessment task / assignment for valid reasons may apply to the teacher for an extension **prior to the due date for submission of the task**. Requests for extensions are to be made in writing. A negotiated extension could be expressed in terms of maximum marks, mark penalties and deadline times as determined by the teacher concerned in consultation with the Head Teacher.

9. Board of Studies Warning Letters

Boards of Studies warning letters are issued to students **who are not meeting course requirements. These letters are a warning to students that they are in danger of failing the course.**

The Course requirements are that the student:

- **follows** the course developed or endorsed by the Board; and
- **applies** themselves with **diligence and sustained effort** to the set tasks and experiences provided in the course by the school;
- **achieves** some or all of the outcomes.

If a student is awarded a zero mark for a task or has not attempted the task, or made a non-serious attempt at the task, they may be at risk of not meeting the **assessment** requirements for that course. In this case, the student will also be sent a Board of Studies warning letter. The

Teacher and Head Teacher will

- advise the student in writing with Board of Studies warning letters
- ensure Board of Studies warning letters are sent to parents informing them their son has missed an assessment task and informing them if attendance and performance have been unsatisfactory
- ensure that when the first Warning Letter is sent, the relevant Head Teacher will arrange a meeting with the student and the parents to discuss student's progress
- ensure that when the second Warning Letter is sent, the relevant Deputy Principal will arrange a meeting with the student and the parents to discuss student's progress and formulate an improvement plan.
- **If a student has two active Board of Studies warning letters, (in the same or different courses), the student may be awarded an 'N' determination in that course.** If the letters remain active following the interview with the Deputy Principal, the Head Teacher will organise an interview with the Principal, the student and the parents to discuss the award of an 'N' determination in that subject.
- **A student who receives a 'N' Determination will not be eligible to proceed to HSC at the end of term 3.**
- ensure that written acknowledgement from the student and his parent(s)/guardians(s) is requested
- ensure a copy of the Board of Studies warning letter is placed on the faculty file and on the student's central file.

Student Reviews / Appeals

A student may appeal:

- against his mark in the course assessed on the grounds of a clerical error
- if the school has varied from its stated Assessment Policy.

No appeal may be entered against marks allocated for a particular task or piece of work.

A student who wishes to appeal must do so in writing. The appeal must be submitted through the Head Teacher of the subject concerned and should be completed soon after receiving the assessment back, or by mid-November of the HSC year. Details of methods of appeal are available from the Principal.

An appeal panel will be formed as required at the time of appeal. The panel will consist of any three of the following:

- Principal
- Deputy Principal
- The Teacher currently involved in teaching the course
- The Head Teacher of the Faculty

In conducting a review, the Board requires the panel to ascertain whether:

- the weightings specified by the school in its assessment program conform to the Board's requirements as detailed in the subject guides;
- the procedures used by the school for determining the final assessment program conform to its stated assessment program.
- there are no computational or other clerical errors in the determination of the assessment mark.
- (BOS: ACE Manual)

Provided the panel is satisfied that these conditions have been met, no change will be made to the final result. If a student is dissatisfied with the decision of the review, there is provision for appeal to the Board of Studies. The only grounds for such appeals will be to judge whether the procedures followed by Granville Boys High School complied with the Board of Studies policy and whether the conduct of the review was proper in all respects.

Vocational Education and Training

1. Introduction

Granville Boys High School Vocational Education and Training (VET) assessment policy is based on the Board of Studies Guidelines and National Assessment Principles. All VET courses follow Granville Boys High School Preliminary and HSC Assessment Policies which include a schedule of assessment tasks, 'N Award' notification and appeals procedures.

2. Rationale

All VET Industry Curriculum Framework courses offered in Years 11 and 12 use competency-based assessment. This means that student achievement is assessed against industry competency standards. Industry competency standards describe the tasks performed by competent workers in the workplace.

Competency is the performance of outcomes (knowledge / skills / attitudes) under particular conditions (preferably workplace conditions) to a required standard (specific to a particular industry).

3. The Purposes of Assessment

Assessment for the Higher School Certificate VET framework courses has two distinct purposes:
Assessment for the Australian Qualification Framework (AQF) – Competency based:

- applies to all courses within frameworks
- means of industry recognition

Assessment for Australian Tertiary Admission Rank (ATAR):

- written HSC examination
- optional for the 240-hour course only

4. Assessment for the Australian Qualification Framework (AQF)

To gain an AQF Certificate I or II, students must:

- satisfactorily complete the mandatory workplace hours for their industry framework
- provide evidence that they have reached the competency standards for **every** unit chosen by their teacher in their industry framework.

The focus of the assessment of accredited vocational courses at GBHS is on what students can actually do and the standards at which they are able to perform. Assessment of competencies is criterion referenced, which means performance is measured in terms of whether students meet the prescribed levels of competency, not how well they carry out tasks relative to each other, or how long it takes to obtain the skill. Competence also implies that an individual displays an understanding of the knowledge that underpins the practical performance of the task. Students will be deemed 'competent' or 'more evidence required' in each module.

VET courses contain both core and optional modules. The course of study will be determined by negotiation between students and teachers for each industry framework. To gain an AQF Certificate I or II, students must provide evidence of competence in **all** modules chosen. To prove competency, students must satisfactorily complete all assessment tasks set for their industry framework. Standard school assessment procedures must be followed. However, as VET courses are competency based, students may attempt assessment tasks to demonstrate each competency more than once.

- **If a student is unsuccessful, they will be deemed not competent in that unit and the unit will not appear on their record. This will result in the student being ineligible for the AQF Certificate in the course.**
- **Students who do not satisfy the performance criteria in the competency standards for every module chosen by their teacher in their industry framework will be eligible for a Statement of Attainment at the end of their course. The Statement of Attainment will state all modules in which the student has proven their competency.**

5. Assessment for Australian Tertiary Admission Rank (ATAR)

For a VET course to contribute to a student's ATAR a student must:

- follow the standard procedures set down by the Board of Studies for satisfactory completion of a HSC course.
- successfully complete the mandatory work placement hours.
- sit the HSC examination.

6. HSC Examination

Every 2 Unit VET course offered at the school has an optional external HSC examination. The external exam is based on a sample of the knowledge, skills and understanding outcomes of the VET syllabus.

The HSC examination

- has no impact on student eligibility for AQF qualifications
- is optional for VET students
- is a two-hour written paper
- results contribute to the calculation of the student's ATAR.

Students who sit the examination will receive a course report in the same form as other Board developed courses. Reports will show marks ranging from 0 to 100 in each course. Each student will be placed into one of six performance bands. A performance description associated with each band will summarise the attainments typically demonstrated by students. These performance descriptions refer to examination performance only and will not seek to describe achievement of industry competencies assessed through competency-based assessment.

Students undertaking the 240 courses are automatically enrolled in the HSC examination. Any student who does **not** wish to sit for the HSC external examination must contact the VET coordinator at the school during their HSC year. Students and their parents/guardians will need to complete the appropriate form and the VET coordinator will notify the BOS.

The external examination **only** may contribute to the calculation of the student's ATAR. Withdrawal from the examination does not affect requirements for completing the VET course satisfactorily for the HSC. If a student has satisfactorily completed the VET course but has not undertaken the external examination, the student will have the VET subject listed on their HSC, but there will be no examination mark and the VET course will not contribute to the calculation of their ATAR.

7. Board of Studies Requirements

Students undertaking a VET course must meet the requirements of the Board of Studies for the Higher School Certificate along with the requirements of the AQF for the award of a certificate of attainment or a statement of attainment.

The Board of Studies has mandated work placement as a requirement of the HSC. Students must achieve the hours of work placement required for the course undertaken.

The rules and processes related to an “N” award for a Board Developed Course are applicable to students undertaking a VET course. VET teachers must maintain appropriate documentation and follow the school’s procedures when a student is not meeting course requirements.

8. Recognition of Prior Learning

Students who already have some knowledge or experience that is covered in detail in a VET course at Granville Boys High School, may apply for recognition of prior learning. School Recognition of Prior Learning (RPL) policies and procedures are in line with Granville School Education Area policies and procedures. Students must contact the school VET coordinator to obtain further information and an application for RPL.

9. Assessment Principles and Procedures

The assessment program for each framework is integral to the overall teaching and learning program and has direct links with the elements of competency. Assessment tasks are designed to be valid and reliable indicators of student competence in a manner that is flexible in order to be fair and equitable for all students. Constructive feedback to students is included in all assessment tasks.

A range of assessment opportunities will be provided to enable all students to demonstrate achievement in all units of competency contained in their VET course of study. Assessment may take the form of observation, assignment, portfolio, oral tasks, simulations, role-playing, journal, examination, presentation, practical demonstration or any other appropriate assessment strategies. Assessment tasks may be designed to integrate elements of competencies from different modules.

Assessment moderation and validation strategies are incorporated into the delivery of all VET courses at the school.

10. Internal Examinations

GBHS will conduct a trial HSC to enable teachers to provide the BOS with estimates of student examination performance. This may be required where a student lodges an illness/misadventure appeal relating to the HSC exam. The trial HSC examination may also be used as a source of evidence of competency in some units and elements of competency and may therefore contribute to the competency-based assessment program.

11. Work placement

Mandatory work placement meets part of the assessment criteria for all VET courses conducted at the school and is structured learning out of school in workplaces. As the work placement is compulsory, students who do not complete the required hours of work placement to the satisfaction of the employer and the school will not have the course recognised by the Board of Studies. This will affect the HSC outcome if the student fails to meet the minimum requirement of 10 units in the HSC year. The student will be sent a Board of Studies warning letter.

The minimum required hours of work placement are 35 hrs for each 120-hour course or 70 hrs over 2 years for a 240-hour course. In general, required hours are equal to one week for each 120 hours of the course.

If a student does not attend or complete the work placement provided for them by the school or is not deemed satisfactory by the employer or the school, the student is responsible for providing an alternative work placement. The VET coordinator must approve this work placement before being undertaken by the student.

In the event of illness or misadventure which hinders the student’s attendance at work placement for one or more days, the student must follow the illness/misadventure procedures laid down in the GBHS Assessment Policy.

The policy requires that the student:

- notifies the employer of the absence on the morning of the absence before normal work start time by telephone,
- notifies the class teacher on the morning of the absence by telephone,

- completes the illness/misadventure form found in the GBHS Preliminary and HSC Assessment handbooks with a Doctor's Certificate attached. This must be given to the class teacher on the first day the student returns to school after completing work placement, to be approved by the VET coordinator.

12. Student Reviews/Appeals

A student may appeal against the award of "not yet competent" in a unit of work. The student should firstly discuss the issue with the VET teacher. If still not satisfied, the student should discuss the issue with the Head Teacher or VET coordinator. If the issue is still not resolved the student has a right to appeal the process.

A student who wishes to make a formal appeal must do so in writing. The VET coordinator will provide the student with the school appeal form. The form must be filled in and submitted with supporting documentation to the Principal within 5 working days of the determination.

An appeal panel will be formed within 10 days of the appeal. The panel will consist of the Principal, the VET coordinator, the VET teacher and another teacher from the framework of that appeal. The second VET teacher may be from another school in the case of there being only one teacher of that framework in the school.

The panel will consider the reasons for the appeal and will make one of two decisions on the basis of the evidence you have submitted:

- The assessment **did not** follow the school policy and procedures relating to competency-based assessment. In this instance you will be allowed to resubmit your evidence or be given an opportunity to be reassessed.
- The assessment **did** follow the school policy and procedures relating to competency-based assessment. In this instance the determination will stand and you will not be allowed to resubmit or be given another opportunity for reassessment.

The student may appeal to the Registered Training Organisation through the Regional office if they believe the school process has been unfair. The Regional Vocational Education Consultant (RVEC) will convene an appeals panel to consider that appeal. If the appeal is rejected, the student may lodge a further appeal to VETAB. The RVEC will inform the student of the process.

General Rules (which apply to ALL examinations and assessment tasks)

Exam conditions shall apply from when the first student enters the examination hall/venue until the last student leaves the examination hall/venue. Consistent consequences will apply for students found to be breaching the examination rules.

Before Entering the Examination Hall/Classroom/Library

- Candidates should plan to arrive at least 15 minutes prior to the commencement of all examinations. Lateness is unacceptable.
- Full school uniform must be worn to all examinations.
- NO electronic devices, except NESAs approved calculators, may be brought into the examination hall. NESAs approved calculators must have the memory cleared before entry to the examination hall.
- Candidates must ensure that their **mobile phone(s) is turned off**, while sitting an **examination** nor an **in-class assessment task**.

On Entering the Examination Hall/ classroom and During the Examination

- Candidates must enter the examination hall silently.
- Complete silence **MUST** be adhered to whilst candidates are in the examination hall.
- Bags, containing notes/mobile phones/i-watches, are to be left in an orderly fashion at the back of the examination hall or at the front of a classroom for an in-class assessment task.
- Only clear, plastic pencil cases may be taken to examination desks.
- Candidates sit in alphabetical order or as instructed by supervising staff.

- Candidates are NOT to communicate with any other candidates in any way.
- Candidates must remain for the entire duration of every exam.
- Candidates must avoid the need to go to the toilet as best as possible. No candidates will be permitted to go to the toilet in the first hour or last half hour of the examination.
- Food and drink are NOT permitted in the exam hall. Water, in a clear plastic bottle is permitted.
- Candidates MUST obey all reasonable instructions given by supervisors.
- Borrowing is NOT permitted.
- Candidates must NOT pick up their writing implements until reading time has ceased and writing time has started.
- Caps, beanies, hoods and other such head wear are not permitted to be worn in the examination hall.
- All enquiries are to be addressed to supervising staff by candidates raising their hand.
- Code of Conduct/School Rules apply during ALL exams.

On Leaving the Examination Hall and After the Examination

- NO exam papers or the writing paper provided is to be removed from the examination hall by a student.

COMMON GRADE SCALE FOR PRELIMINARY COURSES

The Common Grade Scale should be used to report student achievement in the Preliminary Stage 6 year in all NSW schools.

The scale describes performance at each of the five grade levels.

A	The student demonstrates extensive knowledge of content and understanding of course concepts and applies highly developed skills and processes in a wide variety of contexts. In addition, the student demonstrates creative and critical thinking skills using perceptive analysis and evaluation. The student effectively communicates complex ideas and information.
B	The student demonstrates thorough knowledge of content and understanding of course concepts and applies well-developed skills and processes in a variety of contexts. In addition, the student demonstrates creative and critical thinking skills using analysis and evaluation. The student clearly communicates complex ideas and information.
C	The student demonstrates sound knowledge of content and understanding of course concepts and applies skills and processes in a range of familiar contexts. In addition, the student demonstrates skills in selecting and integrating information and communicates relevant ideas in an appropriate manner.
D	The student demonstrates a basic knowledge of content and understanding of course concepts and applies skills and processes in some familiar contexts. In addition, the student demonstrates skills in selecting and using information and communicates ideas in a descriptive manner.
E	The student demonstrates an elementary knowledge of content and understanding of course concepts and applies some skills and processes with guidance. In addition, the student demonstrates elementary skills in recounting information and communicating ideas

90-100	BAND 6

ENGLISH FACULTY Assessment Schedules

Preliminary English Extension 1- Objectives and Outcomes

A student:

EE11-1	demonstrates and applies considered understanding of the dynamic relationship between text, purpose, audience and context, across a range of modes, media and technologies
EE11-2	analyses and experiments with language forms, features and structures of complex texts, evaluating their effects on meaning in familiar and new contexts
EE11-3	thinks deeply, broadly and flexibly in imaginative, creative, interpretive and critical ways to respond to, compose and explore the relationships between sophisticated texts
EE11-4	develops skills in research methodology to undertake effective independent investigation
EE11-5	articulates understanding of how and why texts are echoed, appropriated and valued in a range of contexts
EE11-6	reflects on and assesses the development of independent learning gained through the processes of research, writing and creativity

MATHS FACULTY Assessment Schedules

Preliminary Mathematics Extension 1: Objectives and Outcomes

Year 11 outcomes	Year 12 outcomes
Objective: Students develop efficient strategies to solve problems using pattern recognition, generalisation, proof and modelling techniques	
ME11-1 uses algebraic and graphical concepts in the modelling and solving of problems involving functions and their inverses	ME12-1 applies techniques involving proof or calculus to model and solve problems
Objective: Students develop the ability to use concepts and skills and apply complex techniques to the solution of problems and modelling in the areas of trigonometry, functions, calculus, proof, vectors and statistical analysis	
ME11-2 manipulates algebraic expressions and graphical functions to solve problems	ME12-2 applies concepts and techniques involving vectors and projectiles to solve problems
ME11-3 applies concepts and techniques of inverse trigonometric functions and simplifying expressions involving compound angles in the solution of problems	ME12-3 applies advanced concepts and techniques in simplifying expressions involving compound angles and solving trigonometric equations
ME11-4 applies understanding of the concept of a derivative in the solution of problems, including rates of change, exponential growth and decay and related rates of change	ME12-4 uses calculus in the solution of applied problems, including differential equations and volumes of solids of revolution
ME11-5 uses concepts of permutations and combinations to solve problems involving counting or ordering	ME12-5 applies appropriate statistical processes to present, analyse and interpret data
Objective: Students use technology effectively and apply critical thinking to recognise appropriate times for such use	
ME11-6 uses appropriate technology to investigate, organise and interpret information to solve problems in a range of contexts	ME12-6 chooses and uses appropriate technology to solve problems in a range of contexts
Objective: Students develop the ability to interpret, justify and communicate mathematics in a variety of forms	
ME11-7 communicates making comprehensive use of mathematical language, notation, diagrams and graphs	ME12-7 evaluates and justifies conclusions, communicating a position clearly in appropriate mathematical forms

Preliminary Mathematics Extension 1: Assessment Schedule

Outcomes	Assessment Components		Task 1	Task 2	Task 3
		Date	Term 1 Week 10	Term 2 Week 9	Term 3 Week 9/10
		Task	Investigative Task + validation	Class test Open book	Yearly Exam
		Weighting	35%	30%	35%
ME11-1 ME11-3 ME11-4	Understanding, fluency and communication	50%	17.5%	15%	17.5%
ME11-2 ME11-5 ME11-6 ME11-7	Problem solving, reasoning and justification	50%	17.5%	15%	17.5%
Marks		100%	35%	30%	35%

Mathematics Advanced Objectives and Outcomes	
Year 11 outcomes	Year 12 outcomes
Objective: Students: develop knowledge, skills and understanding about efficient strategies for pattern recognition, generalisation and modelling techniques	
MA11-1 uses algebraic and graphical techniques to solve, and where appropriate, compare alternative solutions to problems	MA12-1 uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts
	MA12-2 models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques
	MA12-3 applies calculus techniques to model and solve problems
Objective: Students: develop the ability to use mathematical concepts and skills and apply complex techniques to the modelling and solution of problems in algebra and functions, measurement, financial mathematics, calculus, data and statistics and probability	
MA11-2 uses the concepts of functions and relations to model, analyse and solve practical problems	MA12-4 applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems
MA11-3 uses the concepts and techniques of trigonometry in the solution of equations and problems involving geometric shapes	MA12-5 applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs
MA11-4 uses the concepts and techniques of periodic functions in the solutions of trigonometric equations or proof of trigonometric identities	
MA11-5 interprets the meaning of the derivative, determines the derivative of functions and applies these to solve simple practical problems	MA12-6 applies appropriate differentiation methods to solve problems
MA11-6 manipulates and solves expressions using the logarithmic and index laws, and uses logarithms and exponential functions to solve practical problems	MA12-7 applies the concepts and techniques of indefinite and definite integrals in the solution of problems
MA11-7 uses concepts and techniques from probability to present and interpret data and solve problems in a variety of contexts, including the use of probability distributions	MA12-8 solves problems using appropriate statistical processes
Objective: Students: develop the ability to use advanced mathematical models and techniques, aided by appropriate technology, to organise information, investigate, model and solve problems and interpret a variety of practical situations	
MA11-8 uses appropriate technology to investigate, organise, model and interpret information in a range of contexts	MA12-9 chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
Objective: Students: develop the ability to communicate and interpret mathematics logically and concisely in a variety of forms	
MA11-9 provides reasoning to support conclusions which are appropriate to the context	MA12-10 constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context

Preliminary Course Assessment Schedule: Mathematics Advanced					
Outcomes	Assessment Components		Task 1	Task 2	Task 3
		Date	Term 1 Week 8	Term 2 Week 7	Term 3 Week 9/10
		Task	Class test Open book	Investigative Task + validation	Yearly Exam
		Weighting	30%	35%	35%
MA11-2 MA11-3 MA11-4 MA11-5 MA11-6 MA11-8	Understanding, fluency and communication	50%	15%	17.5%	17.5%
MA11-1 MA11-7 MA11-9	Problem solving, reasoning and justification	50%	15%	17.5%	17.5%
Marks		100%	30%	35%	35%

Mathematics Standard Objectives and Outcomes

Year 11 Standard	Year 12 Standard 1	Year 12 Standard 2
Objective: Students develop the ability to apply reasoning, and the use of appropriate language, in the evaluation and construction of arguments and the interpretation and use of models based on mathematical concepts		
MS11-1 uses algebraic and graphical techniques to compare alternative solutions to contextual problems	MS1-12-1 uses algebraic and graphical techniques to evaluate and construct arguments in a range of familiar and unfamiliar contexts	MS2-12-1 uses detailed algebraic and graphical techniques to critically evaluate and construct arguments in a range of familiar and unfamiliar contexts
MS11-2 represents information in symbolic, graphical and tabular form	MS1-12-2 analyses representations of data in order to make predictions and draw conclusions	MS2-12-2 analyses representations of data in order to make inferences, predictions and draw conclusions
Objective: Students develop the ability to use concepts and apply techniques to the solution of problems in algebra and modelling, measurement, financial mathematics, data and statistics, probability and networks		
MS11-3 solves problems involving quantity measurement, including accuracy and the choice of relevant units	MS1-12-3 interprets the results of measurements and calculations and makes judgements about their reasonableness	MS2-12-3 interprets the results of measurements and calculations and makes judgements about their reasonableness, including the degree of accuracy and the conversion of units where appropriate
MS11-4 performs calculations in relation to two-dimensional and three-dimensional figures	MS1-12-4 analyses simple two-dimensional and three-dimensional models to solve practical problems	MS2-12-4 analyses two-dimensional and three-dimensional models to solve practical problems
MS11-5 models relevant financial situations using appropriate tools	MS1-12-5 makes informed decisions about financial situations likely to be encountered post-school	MS2-12-5 makes informed decisions about financial situations, including annuities and loan repayments
MS11-6 makes predictions about everyday situations based on simple mathematical models	MS1-12-6 represents the relationships between changing quantities in algebraic and graphical forms	MS2-12-6 solves problems by representing the relationships between changing quantities in algebraic and graphical forms
MS11-7 develops and carries out simple statistical processes to answer questions posed	MS1-12-7 solves problems requiring statistical processes	MS2-12-7 solves problems requiring statistical processes, including the use of the normal distribution and the correlation of bivariate data
MS11-8 solves probability problems involving multistage events	MS1-12-8 applies network techniques to solve network problems	MS2-12-8 solves problems using networks to model decision-making in practical problems
Objective: Students develop the ability to use mathematical skills and techniques, aided by appropriate technology, to organise information and interpret practical situations		
MS11-9 uses appropriate technology to investigate, organise and interpret information in a range of contexts	MS1-12-9 chooses and uses appropriate technology effectively and recognises appropriate times for such use	MS2-12-9 chooses and uses appropriate technology effectively in a range of contexts, and applies critical thinking to recognise appropriate times and methods for such use
Objective: Students develop the ability to interpret and communicate mathematics in a variety of written and verbal forms, including diagrams and graphs		
MS11-10 justifies a response to a given problem using appropriate mathematical terminology and/or calculations	MS1-12-10 uses mathematical argument and reasoning to evaluate conclusions, communicating a position clearly to others	MS2-12-10 uses mathematical argument and reasoning to evaluate conclusions, communicating a position clearly to others and justifying a response

Preliminary Mathematics Standard Assessment Schedule:

Outcomes	Assessment Components		Task 1	Task 2	Task 3
		Date	Term 1 Week 8 2024	Term 2 Week 9 2024	Term 3 Week 9/10 2024

Marks		100%	30%	35%	35%

SCIENCE FACULTY Assessment Schedules

Preliminary Biology Objectives and outcomes	
Year 11 course	Year 12 course
<p>Objective Students: develop knowledge and understanding of the structure and function of organisms</p>	<p>Objective Students: develop knowledge and understanding of heredity and genetic technologies</p>
<p>BIO11-8 describes single cells as the basis for all life by analysing and explaining cells' ultrastructure and biochemical processes</p>	<p>BIO12-12 explains the structures of DNA and analyses the mechanisms of inheritance and how processes of reproduction ensure continuity of species</p>
<p>BIO11-9 explains the structure and function of multicellular organisms and describes how the coordinated activities of cells, tissues and organs contribute to macroscopic processes in organisms</p>	<p>BIO12-13 explains natural genetic change and the use of genetic technologies to induce genetic change</p>
<p>Objective Students: develop knowledge and understanding of the Earth's biodiversity and the effect of evolution</p>	<p>Objective Students: develop knowledge and understanding of the effects of disease and disorders</p>
<p>Year 11 course outcomes A student:</p>	<p>Year 12 course outcomes A student:</p>
<p>BIO11-10 describes biological diversity by explaining the relationships between a range of organisms in terms of specialisation for selected habitats and evolution of species</p>	<p>BIO12-14 analyses infectious disease in terms of cause, transmission, management and the organism's response, including the human immune system</p>
<p>BIO11-11 analyses ecosystem dynamics and the interrelationships of organisms within the ecosystem</p>	<p>BIO12-15 explains non-infectious disease and disorders and a range of technologies and methods used to assist, control, prevent and treat non-infectious disease</p>

Preliminary Chemistry - Objectives and Outcomes	
Objective: develop skills in applying the processes of Working Scientifically	
Questioning and predicting CH11/12-1 develops and evaluates questions and hypotheses for scientific investigation	
Planning investigations CH11/12-2 designs and evaluates investigations in order to obtain primary and secondary data and information	
Conducting investigations CH11/12-3 conducts investigations to collect valid and reliable primary and secondary data and information	
Processing data and information CH11/12-4 selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media	
Analysing data and information CH11/12-5 analyses and evaluates primary and secondary data and information	
Problem solving CH11/12-6 solves scientific problems using primary and secondary data, critical thinking skills and scientific processes	
Communicating CH11/12-7 communicates scientific understanding using suitable language and terminology for a specific audience or purpose	
Year 11 course	Year 12 course
Objective: develop knowledge and understanding of the fundamentals of chemistry	Objective: develop knowledge and understanding of equilibrium and acid reactions in chemistry
CH11-8 explores the properties and trends in the physical, structural and chemical aspects of matter CH11-9 describes, applies and quantitatively analyses the mole concept and stoichiometric relationships	CH12-12 explains the characteristics of equilibrium systems, and the factors that affect these systems CH12-13 describes, explains and quantitatively analyses acids and bases using contemporary models
Objective: develop knowledge and understanding of the trends and driving forces in chemical interactions	Objective: develop knowledge and understanding of the applications of chemistry
CH11-10 explores the many different types of chemical reactions, in particular the reactivity of metals, and the factors that affect the rate of chemical reactions CH11-11 analyses the energy considerations in the driving force for chemical reactions	CH12-14 analyses the structure of, and predicts reactions involving, carbon compounds CH12-15 describes and evaluates chemical systems used to design and analyse chemical processes

Preliminary Physics - Objectives and Outcomes

Objective: develop skills in applying the processes of Working Scientifically

Questioning and predicting: PH11/12-1 develops and evaluates questions and hypotheses for scientific investigation

Planning investigations: PH11/12-2 designs and evaluates investigations in order to obtain primary and secondary data and information

Conducting investigations: PH11/12-3 conducts investigations to collect valid and reliable primary and secondary data and information

Processing data and information: PH11/12-4 selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media

Analysing data and information: PH11/12-5 analyses and evaluates primary and secondary data and information

Problem solving: PH11/12-6 solves scientific problems using primary and secondary data, critical thinking skills and scientific processes

Communicating: PH11/12-7 communicates scientific understanding using suitable language and terminology for a specific audience or purpose

Year 11 course	Year 12 course
Objective: develop knowledge and understanding of fundamental mechanics	Objective: develop knowledge and understanding of advanced mechanics and electromagnetism
PH11-8 describes and analyses motion in terms of scalar and vector quantities in two dimensions and makes quantitative measurements and calculations for distance, displacement, speed velocity and acceleration	PH12-12 describes and analyses qualitatively and quantitatively circular motion and motion in a gravitational field, in particular, the projectile motion of particles
PH11-9 describes and explains events in terms of Newton's Laws of Motion, the law of conservation of momentum and the law of conservation of energy	PH12-13 explains and analyses the electric and magnetic interactions due to charged particles and currents and evaluates their effect both qualitatively and quantitatively
Objective: develop knowledge and understanding of energy	Objective: develop knowledge and understanding of the role of evidence and prediction in the development of theories in physics
Year 11 course outcomes	Year 12 course outcomes
PH11-10 explains and analyses waves and the transfer of energy by sound, light and thermodynamic principles	PH12-14 describes and analyses evidence for the properties of light and evaluates the implications of this evidence for modern theories of physics in the contemporary world
PH11-11 explains and quantitatively analyses electric fields, circuitry and magnetism	PH12-15 explains and analyses the evidence supporting the relationship between astronomical events and the nucleosynthesis of atoms and relates these to the development of the current model of the atom

Preliminary Business Studies Objectives and outcomes

Objectives	Preliminary outcomes	HSC outcomes
The nature, role and structure of business	P1 discusses the nature of business, its role in society and types of business structure	H1 critically analyses the role of business in Australia and globally
Internal and external influences on business	P2 explains the internal and external influences on businesses	H2 evaluates management strategies in response to changes in internal and external influences
	P3 describes the factors contributing to the success or failure of small to medium enterprises	H3 discusses the social and ethical responsibilities of management
The functions and processes of business activity	P4 assesses the processes and interdependence of key business functions	H4 analyses business functions and processes in large and global businesses
Management strategies and their effectiveness	P5 examines the application of management theories and strategies	H5 explains management strategies and their impact on businesses
	P6 analyses the responsibilities of business to internal and external stakeholders	H6 evaluates the effectiveness of management in the performance of businesses
The student develops skills to:	The student:	The student:
investigate, synthesise and evaluate contemporary business issues and hypothetical and actual business situations	P7 plans and conducts investigations into contemporary business issues	H7 plans and conducts investigations into contemporary business issues
	P8 evaluates information for actual and hypothetical business situations	H8 organises and evaluates information for actual and hypothetical business situations
communicate business information and issues using appropriate formats	P9 communicates business information and issues in appropriate formats	H9 communicates business information, issues and concepts in appropriate formats
apply mathematical concepts appropriate to business situations	P10 applies mathematical concepts appropriately in business situations	H10 applies mathematical concepts appropriately in business situations

Preliminary Business Studies Assessment Schedule				
Task number	Task 1	Task 2	Task 3	
Nature of task	Topic Test Nature of Business & Business Management	Small Business Plan Business Planning	Yearly Examination	
Timing	Term 2, Week 5	Term 3, Week 4	Term 3, Week 9/10	
Outcomes assessed	P1, P2, P6, P7, P8	P1, P3, P6, P7, P9	P3, P4, P5, P8, P9, P10

Preliminary Modern History - Objectives and Outcomes

Objectives: Students:

- develop knowledge and understanding of a range of features, people, ideas, movements, events and developments of the modern world in their historical context
- develop an understanding of continuity and change over time.

Year 11 course outcomes

A student:

MH11-1 describes the nature of continuity and change in the modern world

MH11-2 proposes ideas about the varying causes and effects of events and developments

MH11-3 analyses the role of historical features, individuals, groups and ideas in shaping the past

MH11-4 accounts for the different perspectives of individuals and groups

MH11-5 examines the significance of historical features, people, ideas, movements, events and developments of the modern world

Year 12 course outcomes

A student:

MH12-1 accounts for the nature of continuity and change in the modern world

MH12-2 proposes arguments about the varying causes and effects of events and developments

MH12-3 evaluates the role of historical features, individuals, groups and ideas in shaping the past

MH12-4 analyses the different perspectives of individuals and groups in their historical context

MH12-5 assesses the significance of historical features, people, ideas, movements, events and developments of the modern world

Objectives: Students:

- undertake the process of historical inquiry
 - use historical concepts and skills to examine the modern past
- communicate an understanding of history, sources and evidence, and historical interpretations

MH11-6 analyses and interprets different types of sources for evidence to support an historical account or argument

MH11-7 discusses and evaluates differing interpretations and representations of the past

MH11-8 plans and conducts historical investigations and presents reasoned conclusions, using relevant evidence from a range of sources

MH11-9 communicates historical understanding, using historical knowledge, concepts and terms, in appropriate and well-structured forms

MH11-10 discusses contemporary methods and issues involved in the investigation of modern history

MH12-6 analyses and interprets different types of sources for evidence to support an historical account or argument

MH12-7 discusses and evaluates differing interpretations and representations of the past

MH12-8 plans and conducts historical investigations and presents reasoned conclusions, using relevant evidence from a range of sources

MH12-9 communicates historical understanding, using historical knowledge, concepts and terms, in appropriate and well-structured forms

Preliminary Modern History Assessment Schedule

Training and Assessment Strategy

Approved by: RTO Management

This Training and Assessment Strategy is designed for the delivery and assessment of this qualification.

Date of Approval: October 2018

Delivery Site	Granville Boys High School		Trainer's Name:	Cohort: 2024-2025		
Qualification Title & Code	Certificate III in Retail (Release 2) SIR30216		NSW Education Standards Authority (NESA) Course Title: Retail Services <input type="checkbox"/> 2 x 2 years Course code: 26911		The selection of electives has been guided by the job outcome, local industry requirements and the complexity of skills appropriate to the AQF level of this qualification deemed suitable for the student cohort.	
This course is from Training Package: SIR Retail Services (Release 2)						
Qualification Packaging Rules: SIR30216 Certificate III in Retail 8 Core units and 5 Elective units <ul style="list-style-type: none"> 3 units from the listed electives & 2 units from the listed electives, elsewhere in SIR Retail Services Training Package, or any other current Training Package or accredited course as determined by local industry requirements. 			Students successfully completing this program will be eligible to receive SIR30216 - Certificate III in Retail			
Qualification Status	Unit Code	Unit of Competency	Qual Group	Pre/Co requisite	HSC Indicative Hours	Status for NESA/HSC
Core	SIRXCEG001	Engage the customer	Core	Nil	20	Mandatory
	SIRXCOM002	Work effectively in a team	Core	Nil	15	Mandatory
	SIRXWHS002	Contribute to workplace health and safety	Core	Nil	15	Mandatory
	SIRXRSK001	Identify and respond to security risks	Core	Nil	15	Mandatory
	SIRXSLS001	Sell to the retail customer	Core	Nil	15	Mandatory
	SIRXIND001	Work effectively in a service environment	Core	Nil	20	Mandatory
	SIRXCEG002	Assist with customer difficulties	Core	Nil	20	Elective
Electives	SIRXPDK001	Advise on products and services	Other	Nil	20	Mandatory - general selling stream
	SIRRMER001	Produce visual merchandise displays	Merchandising	Nil	20	Mandatory - general selling stream
	SIRRINV001	Receive and handle retail stock	Inventory	Nil	15	Elective
	SIRRINV002	Control stock	Inventory	Nil	20	Elective
	SIRXIND002	Organise and maintain the store environment	Working in Industry	Nil	10	Elective
* extra UoC for NESA/HSC requirements	* SIRXSLS002	*Follow point-of-sale procedures	Other	Nil	20	Mandatory
Total					245	

School Name: GRANVILLE BOYS HIGH SCHOOL
COURSE: Preliminary Retail Services

Student Competency Assessment Schedule
2024

Assessment Tasks for Certificate III in Retail SIR30216		Cluster A	Cluster B	Cluster C	Cluster D	Yearly Exam
		Customer Service	Safety	Are you being served?	Working in the industry	
		Week:4 and 8 Term:1	Week:4 Term:2	Week:8, week 2 Term:2 and 3	Week: 8, week 4 Term: 3 and 3	
Code	Unit of Competency					Week:9 and 10 Term: 3
SIRXCEG001	Engage the Customer	X				HSC Examinable Units of Competency
SIRXCOM002	Work effectively in a team	X				
SIRXWHS002	Contribute to workplace health and safety		X			
SIRXCEG002	Assist with Customer Difficulties			X		
SIRXCEG003	Build Customer relationships and loyalty			X		
SIRXIND001	Work effectively in a service environment				X	
SIRXIND002	Organise and maintain a store environment.				X	

Depending on the achievement of units of competency, the possible qualification outcome is a Certificate III in Retail SIR30216 or a Statement of Attainment towards a Certificate III in Retail SIR30216.

Schools will schedule exam items in preparation for the HSC. These do not form part of the RTO assessment requirements.

The assessment components in this course are competency based. This means that students need to demonstrate that they have gained and can apply the specific knowledge and skills of each unit of competency. Competency assessment is graded as “not yet competent” or “competent”. In some cases, other descriptive words may be used leading up to “competent”. A course mark is not allocated.

Assessment

schedules

School Name: Granville Boys High School

Assessment Schedule Year 11 - 2024

Assessment Tasks for CPC20220 Certificate II in Construction Pathways (Release 6) & Statement of Attainment towards CPC20120 Certificate II in Construction (Release 3) Ongoing assessment of skills and knowledge is collected throughout the course and forms part of the evidence of competence of students.			Task 1 White Card	Task 2 Work safe, stay safe	Task 3 Working it out	Task 4 Project planning	EXAM (Optional)
Code	Unit of Competency	HSC Examinable Unit	Week 5 Term 1 Date 1/3	Week 11 Term 1 Date 12/4	Week 10 Term 2 Date 5/7	Week 10 Term 3 Date 27/9	Week 9/10 Term 3 Date
CPCWHS1001	Prepare to work safely in the construction industry		X				
CPCCWHS2001	Apply WHS requirements, policies, and procedures in the construction industry	√		X			
CPCCCM1011	Undertake basic estimation and costing				X		
CPCCOM1015	Carry out measurements and calculations	√			X		
CPCCOM2001	Read and interpret plans and specifications	√				X	
CPCCOM1013	Plan and organise work	√				X	

Depending on the achievement of units of competency, the possible qualification outcome at the completion of Year 11 Statement of Attainment toward CPC20220 Certificate II in Construction Pathways (Release 6) & Statement of Attainment towards CPC20120 Certificate II in Construction (Release 3).

The assessment components in this course are competency based. Students must demonstrate they have gained the knowledge and skills of each unit of competency, to industry standards. Competency assessment is graded as “not yet competent” or “competent”. In some cases, other descriptive words may be used leading up to “competent”.

Assessment Schedule Year 11 - 2024

Assessment Tasks for SIT20421 Certificate II in Cookery Ongoing assessment of skills and knowledge is collected throughout the course and forms part of the evidence of competence of students.		Task 1 Safety in the kitchen		Task 2 Service please		EXAM (Optional)
		Week	9	Week	5	Week 9-10
Code	Unit of Competency	Term	1	Term	3	Term 3
		Date	29/03/24	Date	23/08/24	Date
SITXFSA005	Use hygienic practices for food safety		X			
SITXWHS005	Participate in safe work practices		X			
SITXFSA006	Participate in safe food handling practices		X			
SITHCCC025	Prepare and present sandwiches		X			
SITXCOM007	Show social and cultural sensitivity				X	
SITXCCS011	Interact with customers				X	

Depending on the achievement of the units of competency, the possible qualification outcome at the completion of Year 11 is a Statement of Attainment toward SIT20421 Certificate II in Cookery.

*** Examinable units to be confirmed by teacher.**

The assessment components in this course are competency based. Students must demonstrate they have gained the knowledge and skills of each unit of competency, to industry standards. Competency assessment is graded as “not yet competent” or “competent”. In some cases, other descriptive words may be used leading up to “competent”.

Industrial Technology Timber Preliminary Objectives and Outcomes

Objectives	Outcomes
<p>Students will develop:</p> <p>1. knowledge and understanding of the focus area industry and of manufacturing processes and techniques used by industry</p>	<p>A student:</p> <p>P1.1 describes the organisation and management of an individual business within the focus area industry</p> <p>P1.2 identifies appropriate equipment, production and manufacturing techniques, including new and developing technologies</p>
<p>2. knowledge and understanding of safe and cooperative work practices and of the need for a safe and cooperative work environment</p>	<p>P2.1 describes and uses safe working practices and correct workshop equipment maintenance techniques</p> <p>P2.2 works effectively in team situations</p>
<p>3. competence in designing, managing and communicating within a relevant industry context</p>	<p>P3.1 sketches, produces and interprets drawings in the production of projects</p> <p>P3.2 applies research and problem-solving skills</p> <p>P3.3 demonstrates appropriate design principles in the production of projects</p>
<p>4. knowledge and skills in producing quality products</p>	<p>P4.1 demonstrates a range of practical skills in the production of projects</p> <p>P4.2 demonstrates competency in using relevant equipment, machinery and processes</p> <p>P4.3 identifies and explains the properties and characteristics of materials/components through the production of projects</p>
<p>5. knowledge and skills in communication and information processing related to the industry focus area</p>	<p>P5.1 uses communication and information processing skills</p> <p>P5.2 uses appropriate documentation techniques related to the management of projects</p>
<p>6. an appreciation of quality products and the principles of quality control</p>	<p>P6.1 identifies the characteristics of quality manufactured products</p> <p>P6.2 identifies and explains the principles of quality and quality control</p>
<p>7. an appreciation of the relationships between technology, the individual, society and the environment</p>	<p>P7.1 identifies the impact of one related industry on the social and physical environment</p> <p>P7.2 identifies the impact of existing, new and emerging technologies of one related industry on society and the environment</p>

Preliminary Design and Technology - Objectives and Outcomes

Objectives - Students will develop:	Preliminary Course Outcomes - A Student:
1. Knowledge and understanding about design theory and design processes in a range of contexts	P1.1 examines design theory and practice, and considers the factors affecting designing and producing in design projects
2. Knowledge, understanding and appreciation of the interrelationship of design, technology, society and the environment	P2.1 identifies design and production processes in domestic, community, industrial and commercial settings P2.2 explains the impact of a range of design and technology activities on the individual, society and the environment through the development of projects
3. Creativity and an understanding of innovation and entrepreneurial activity in a range of contexts	P3.1 investigates and experiments with techniques in creative and collaborative approaches in designing and producing
4. Skills in the application of design processes to design, produce and evaluate quality design projects that satisfy identified needs and opportunities	P4.1 uses design processes in the development and production of design solutions to meet identified needs and opportunities P4.2 uses resources effectively and safely in the development and production of design solutions P4.3 evaluates the processes and outcomes of designing and producing
5. Skills in research, communication and management in design and production	P5.1 uses a variety of management techniques and tools to develop design projects P5.2 communicates ideas and solutions using a range of techniques P5.3 uses a variety of research methods to inform the development and modification of design ideas
6. Knowledge and understanding about current and emerging technologies in a variety of settings	P6.1 investigates a range of manufacturing and production processes and relates these to aspects of design projects P6.2 evaluates and uses computer-based technologies in designing and producing

CAPA Assessment Schedule

Preliminary Music 1 - Objectives and Outcomes			
	Preliminary Outcomes (P)		HSC Outcomes (H)
	Objective: to develop knowledge and skills about the concepts of music and of music as an art form through performance, composition, musicology and aural activities in a variety of cultural and historical contexts.		
P1	performs music that is characteristic of the topics studied	H1	performs stylistically, music that is characteristic of topics studied, both as a soloist and as a member of an ensemble
P2	observes, reads, interprets and discusses simple musical scores characteristic of topics studied	H2	reads, interprets, discusses and analyses simple musical scores that are characteristic of the topics studied
P3	improvises and creates melodies, harmonies and rhythmic accompaniments for familiar sound sources reflecting the cultural and historical contexts studied	H3	improvises and composes music using the range of concepts for familiar sound sources reflecting the cultural and historical contexts studied
P4	recognizes and identifies the concepts of music and discusses their use in a variety of musical styles	H4	articulates an aural understanding of musical concepts and their relationships in a wide variety of musical styles
	Objective: to develop the skills to evaluate music critically.		
P5	comments on and constructively discusses performances and compositions	H5	critically evaluates and discusses performances and compositions
P6	observes and discusses concepts of music in works representative of the topics studied	H6	critically evaluates and discusses the use of the concepts of music in works representative of the topics studied and through wide listening
	Objective: to develop an understanding of the impact of technology on music.		
P7	understands the capabilities of performing media, explores and uses current technologies as appropriate to the topics studied	H7	understands the capabilities of performing media, incorporates technologies into composition and performance as appropriate to the topics studied
P8	identifies, recognizes, experiments with and discusses the use of technology in music	H8	identifies, recognizes, experiments with, and discusses the use and effects of technology in music
	Objective: to develop personal values about music.		
P9	performs as a means of self-expression and communication	H9	performs as a means of self-expression and communication
P10	demonstrates a willingness to participate in performance, composition, musicology and aural activities	H10	demonstrates a willingness to participate in performance, composition, musicology and aural activities
P11	demonstrates a willingness to accept and use constructive criticism	H11	demonstrates a willingness to accept and use constructive criticism

PDHPE Assessment Schedules

Preliminary PDHPE Objectives and Outcomes

Objectives: knowledge and understanding of the factors that affect health

Preliminary Course Outcomes	HSC Course Outcomes
P1 identifies and examines why individuals give different meanings to health	H1 describes the nature and justifies the choice of Australia's health priorities
P2 explains how a range of health behaviours affect an individual's health	H2 analyses and explains the health status of Australians in terms of current trends and groups most at risk
P3 describes how an individual's health is determined by a range of factors	H3 analyses the determinants of health and health inequities

Objectives: a capacity to exercise influence over personal and community health outcomes

P4 evaluates aspects of health over which individuals can exert some control	H4 argues the case for health promotion based on the Ottawa Charter
P5 describes factors that contribute to effective health promotion	H5 explains the different roles and responsibilities of individuals, communities and governments in addressing Australia's health priorities
P6 proposes actions that can improve and maintain an individual's health	H6 demonstrates a range of personal health skills that enables them to promote and maintain health (Option 1)

Objectives: knowledge and understanding about the way the body moves

P7 explains how body systems influence the way the body moves	H7 explains the relationship between physiology and movement potential
P8 describes the components of physical fitness and explains how they are monitored	H8 explains how a variety of training approaches and other interventions enhance performance and safety in physical activity
P9 describes biomechanical factors that influence the efficiency of the body in motion	H9 explains how movement skill is acquired and appraised

Objectives: an ability to take action to improve participation and performance in physical activity

P10 plans for participation in physical activity to satisfy a range of individual needs	H10 designs and implements training plans to improve performance
P11 assesses and monitors physical fitness levels and physical activity patterns	H11 designs psychological strategies and nutritional plans in response to individual performance needs
P12 demonstrates strategies for the assessment, management and prevention of injuries in first aid settings (Option 1)	H12 analyses the influence of sociocultural factors on the way people participate in and value physical activity and sport (Option 2)
P13 develops, refines and performs movement compositions in order to achieve a specific purpose (Option 2)	H13 selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity (Option 3)
P14 demonstrates the technical and interpersonal skills necessary to participate safely in challenging outdoor recreation activities (Option 4)	

Objectives: an ability to apply the skills of critical thinking, research and analysis

P15 forms opinions about health-promoting actions based on a critical examination of relevant information	H14 argues the benefits of health-promoting actions and choices that promote social justice
P16 uses a range of sources to draw conclusions about health and physical activity concepts	H15 critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all
P17 analyses factors influencing movement and patterns of participation	H16 devises methods of gathering, interpreting and communicating information about health and physical activity concepts
	H17 selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation

Personal Development, Health and Physical Education – Preliminary Assessment Schedule				
Component	Task 1	Task 2	Task 4	Weighting
Title	Good Health is Your Responsibility	Movement Analysis	Yearly Examination	
Timing	Term 1, Week 6	Term 2, Weeks 2–6	Term 3, Week 9-10	
Topic	Core 1: Better Health for Individuals	Core 2: Body in Motion	Core 1 + Core 2 + Option 1: First Aid + Option 4: Outdoor Recreation	
Weighting	30%	40%	40%	
Outcomes	P1, P2, P3, P4, P5, P6, P15, P16	P7, P8, P11, P17	P1, P2, P3, P4, P5, P6, P7, P8, P11, P15, P16, P17

GLOSSARY OF KEY WORDS

Syllabus outcomes, objectives, performance banks and examination questions have key words that state what students are expected to be able to do. A glossary of key words has been developed to help provide a common language and consistent meaning in the Higher School Certificate documents.

Using the glossary will help teachers and students understand what is expected in responses to examinations and assessment tasks.

Account	Account for: state reasons for, report on. Give an account of: narrate a series of events or transactions
Analyse	Identify components and the relationship between them; draw out and relate implications
Apply	Use, utilise, employ in a particular situation
Appreciate	Make a judgement about the value of
Assess	Make a judgement of value, quality, outcomes, results or size
Calculate	Ascertain/determine from given facts, figures or information
Clarify	Make clear or plain
Classify	Arrange or include in classes/categories
Compare	Show how things are similar or different
Construct	Make; build; put together items or arguments
Contrast	Show how things are different or opposite
Critically analyse /evaluate	Add a degree or level of accuracy, depth, knowledge and understanding, logic, questioning, reflection and quality to analysis/evaluation
Deduce	Draw conclusions
Define	State meaning and identify essential qualities
Demonstrate	Show by example
Describe	Provide characteristics and features
Discuss	Identify issues and provide points for and/or against
Distinguish	Recognise or note/indicate as being distinct or different from; to note differences between
Evaluate	Make a judgement based on criteria; determine the value of
Examine	Inquire into
Explain	Relate cause and effect; make the relationships between things evident; provide why and/or how
Extract	Choose relevant and/or appropriate details
Extrapolate	Infer from what is known
Identify	Recognise and name
Interpret	Draw meaning from
Investigate	Plan, inquire into and draw conclusions about
Justify	Support an argument or conclusion
Outline	Sketch in general terms; indicate the main features of
Predict	Suggest what may happen based on available information
Propose	Put forward (for example a point of view, idea, argument, suggestion) for consideration or action
Recall	Present remembered ideas, facts or experiences
Recommend	Provide reasons in favour
Recount	Retell a series of events
Summarise	Express, concisely, the relevant details
Synthesise	Putting together various elements to make a whole

Assessment Task Illness / Misadventure Application

REQUEST FOR CONSIDERATION

To be completed by a student who was / is unable to attend / submit an assessment on the due date

Student's Name: _____ **Roll Class:** _____
Course: _____ **Faculty:** _____

Assessment Task Missed: _____ **Task Date:** _____

Task missed due to illness: Attach Doctor's Certificate to this form.

Doctor's Name: _____

Task missed through other reason: State reason and attach any supporting evidence.

Student's Signature: _____ Date: _____

FACULTY SECTION – to be completed by Head Teacher

Misadventure / illness application form received by: _____ Date: _____

Did student inform school of absence on the day of the task? Yes No

Was application lodged the next day the student was in attendance at school? Yes No

Teacher's name: _____

Teacher's comment: _____

Has this student submitted an Illness/Misadventure form for any other assessment tasks in this subject?

No Yes If yes, please comment _____

Head Teacher's recommendations: Accepted Rejected

New task Estimated mark Zero Award Referred to Examination Misadventure Panel

Head Teacher's Signature: _____

Principal's Use: Accepted Rejected

Comment: _____

Principal's Signature _____ Date: _____

Parent / Guardian Comment:

Parent / Guardian Signature: _____ **Date:** _____
